

I think that the banks or any other place of business should not be able to call anytime they want. Just like the telemarketers. I don't want to be getting phone calls all the time that is why I had my name and phone number put on the no call list in the first place. The way I see it if there is something I need or want information for I will call them. I don't need them bugging me or interrupting me. So I think that they should not be able to call anytime they want or as much as they want.

Thank You
